

REMARKS

Claim 8 has been amended to correct a typographical error so that an antecedent basis is provided for the tubular plug extension recited in the claim.

The specification has been amended to avoid the duplication of reference numerals. Accordingly, Figures 5A-5E, 6A-6E, and 7 have also been corrected to avoid the duplication of reference numerals. These figures have also been submitted in a drawing submission under separate cover. The specification has also been amended to discuss the bolt 210 when first introducing the embodiment shown in Figures 9A-9E. No new matter has been added to the application.

The application is now in better order for examination.

Respectfully submitted,

FAY, SHARPE, FAGAN,
MINNICH & McKEE, LLP

AMENDMENTS TO THE DRAWINGS:

Applicant(s) submit(s) herewith three (3) sheets of replacement drawings. The amendments to the drawings are as follows:

The reference numerals have been changed so that reference numeral "**210**" is not used to designate two different components. Accordingly, the barrel of the revolver is now designated as reference numeral **202**. The cylinder of the revolver is now designated as reference numeral **204**.
